ADD/A

2 March 1953

25X1A6a 3. I advised Dr. Tietjen that I had discussed his request to send a doctor to 25X1A9a  
[redacted] with [redacted] who was opposed to the idea and that I would hold up our ap-  
proval until he had this cleared with [redacted] the Far East people. Apparent-  
ly there is a misunderstanding on the part of the DD/P personnel since Dr. Tietjen 25X1A9a  
says that people [redacted] have cabled requesting a doctor. 25X1A6a

4. I asked George Meloon to supply me with statistics on consultants in view of  
the fact that it has been suggested by the Deputy Director (Intelligence) that we re-  
commend to the Director that he allow Deputies to approve of the appointments of con-  
sultants in the future.

5. I inquired of George Meloon as to the status of the study on "Briefing of  
Outgoing Personnel" and he said that he would have something over within the next few  
days. 25X1A9a

25X1A9a 7. Reviewed the Revised 1953 and 1954 budget figures with Mr. Saunders, Mr.  
[redacted] and Mr. Wolf and instructed Mr. Saunders to transmit the figures to the Bureau  
of the Budget tomorrow. We will take steps to prepare a special letter of justifica-  
tion from Mr. Dulles to follow it up.

8. Mr. Wolf requested that I insure that he sees Larry Houston's memorandum to  
the Director concerning the use of confidential funds before it is forwarded.
